

PV9361 SOLAS Inflatable Life Jacket, 275 N

PV9361 is part of our inflatable SOLAS lifejacket range, which also includes PV9320 and PV9360.

The lifejacket has a 275 Newton asymmetrical buoyancy chamber and can be configured with different types of buckles, covers, lights and inflation units etc., to fit customer specification. All features are trademarks with a proven performance record i.e. Cordura fabrics, ITW Nexus buckle system, Halkey Roberts and Hammar release units. The design of the lifejacket emphasizes both fit and performance.

The standard features include whistle, reflective tape, lifting strap, buddy line and a crotch strap for added safety. Furthermore the lifejacket is equipped with a special cleat system combining the buoyancy chamber and the cover without any external straps, which creates a safer recovery in an emergency situation. The cover fabrics are all high quality which ensures durability and a longer lifespan, even for extended wear.

All lifejackets are produced and certified according to the updated MSC.200 regulation and according to ISO9001:2008.

Approvals

SOLAS
