

BUILT BY THE BEST TO WITHSTAND THE WORST.

Product data sheet

5KG CO2 Fire Extinguisher Cabinet (JB28R)

Typical use:

For the storage of 1 x 5Kg CO2 extinguisher. This cabinet is widely used in the Offshore energy and marine sectors. Most 5KG CO2 fire extinguishers will fit in the JB84 but for models taller than 939mm will require the JB28R.

Description:

These cabinets are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments. This is backed up with an excellent IP rating of 56. It has both Lloyds and ABS approvals.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the door aperture. The hinges are secured with 316 stainless steel nuts, bolts and washers.

The door can be specified with left or right hinging and features a graphite nylon rotary handle with anti-tamper seal facility.

EXPORT CHAMPION

Standard specification:

Dimensions (mm)

Height x width x depth: 1076 x 463 x 320

Aperture: 895H x 259W

Internal depth: 266

Weight Kg: 11Kg

Material specification:

Colour: Red RAL3000

Material: Lloyds approved composites with UV stabilised gelcoat

Hinges: Nylon 6 'T' hinges

Handle: Rotary nylon/stainless steel with anti-tamper seal

Seal: EPDM

Optional Extras:

Other RAL colours

- Class 1 fire retardant composites
- Perspex window with bezel
- **316 Stainless Steel hinges**
- Nylon strap with quick release buckle
