Product data sheet

JB08.600LJS cabinet

Typical use:

For the storage of foam filled or automatic lifejackets in bags). This cabinet is widely used in the Offshore energy and commercial marine sectors.

Description:

These cabinets are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments. This is backed up with an excellent IP rating of 56. It has both Lloyds and ABS approvals.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the door aperture. The hinges are secured with 316 stainless steel nuts, bolts and washers.

The cabinet comes fitted with a central shelf for orderly storage of the lifejackets.

The door can be specified with left or right hinging and features a nylon rod handle to pull the door open to guarantee fast access even when wearing gloves.

Standard specification:

Dimensions (mm)

Height x width x depth: 1488 x 925 x 618

Aperture: 1234H x 704W

Internal depth: 546

Weight Kg: 38Kg

Material specification:

Colour: Red RAL 2009

Material: Lloyds approved composites with UV stabilised

gelcoat
