JB17.1200 Equipment Cabinet

Typical use:

For storage of miscellaneous equipment. This cabinet is widely used in the Offshore energy and marine sectors.

Description:

These cabinets are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments. This is backed up with an excellent IP rating of 56. It has both Lloyds and ABS approvals.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the door aperture. The hinges are secured with 316 stainless steel nuts, bolts and washers.

The door can be specified with left or right hinging and features a Stainless steel L handle to pull the door open to guarantee fast access even when wearing gloves.

Standard specification:

Dimensions (mm)

Height x width x depth: 2060 x 1425 x 1200

Aperture: 1739H x 1164W

Internal depth: 1150

Weight Kg: 71Kg

Material specification:

Colour: White RAL 09010

Material: Lloyds approved composites with UV stabilised gelcoat

Hinges: 316 Stainless steel

Handle: 316 Stainless steel L handle

Seal: EPDM

Optional Extras:
