JB93 Equipment Chest

Typical use:

For the storage of Lifejackets or emergency descent devices. This chest is designed for use in the Offshore energy and marine sectors.

Description:

These chests are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments. This is backed up with an excellent IP rating of 56. It has both Lloyds and ABS approvals.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the lid aperture. The hinges and catches are secured with 316 stainless steel nuts, bolts and washers. The lid is fitted with stainless steel struts to lock the lid in the open position for easy inspection.

Standard specification:

Dimensions (mm)

Height x width x depth: 450 x 1000 x 451

Aperture: 946H x 346W

Internal depth: 397

Weight Kg: 16Kg

Material specification:

Colour: Orange RAL 2009

Material: Lloyds approved composites with UV stabilised gelcoat

Hinges: 316 Stainless steel

Lid struts: 304 Stainless steel
