Product data sheet

JB16.360HR Wash down hose Cabinet

Typical use:

For the storage of 2 x lengths of 20M Water hose and a nozzles. This cabinet is widely used in the Offshore energy, marine and industrial sectors.

Description:

These cabinets are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments. This is backed up with an excellent IP rating of 56. It has both Lloyds and ABS approvals.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the door aperture. The 316 Stainless steel hinges are secured with 316 stainless steel nuts, bolts and washers.

It is fitted with a stainless steel hose pin to help maintain the shapes of the hoses.

The door can be specified with left or right hinging and features a graphite nylon rotary door handle incorporating Biomaster® technology. It can also be fitted with an anti-tamper seal.

Standard specification:

Dimensions (mm)

Height x width x depth: 643 x 726 x 362

Aperture: 460H x 520W

Internal depth: 290

Weight Kg: 10Kg

Material specification:

Colour: Blue RAL 5002

Material: Lloyds approved composites with UV stabilised gelcoat

Hinges: 316 Stainless steel

Hose pin: 316 Stainless steel

Handle: Nylon/316 Stainless steel

Seal: EPDM

Optional Extras:

Other RAL colours

Class 1 fire retardant composites
