The industry leading structural eco suit

The FS670/FS675 is an entry-level structural firefighters suit which we have designed and built from the ground-up.

Available in multiple assembly options featuring our own innovative fabrics alongside industry-leading Kevlar protection reinforcement while still providing enhanced levels of breathability and improved heat transfer performance. We have confidence in this eco suit being the highest performing available on the market today.

FS670/FS675 is our latest innovative solution for the entry-level structural firefighters suit. It retains the highest levels of protection, improved comfort and flexible fit whilst still maintaining the value you can expect.

Created from the ground-up, this design-lead solution continues to feature our highest quality fabrics, multiple assembly options and ergonomic styling for improved comfort and mobility.

FS670/FS675 is the economical choice with the highest levels of comfort and protection.

BS EN ISO 13988:2013, BS EN 469:2020 & MED Approved

FS670 Jacket

- Collar hanging loop
- Adjustable collar tab for better fit
- High shaped mandarin collar for better comfort and protection
- One microphone loops at upper chest
- Internal FR 3D spacer shoulder and back padding
- Puncture resistant Kevlar® padding at the elbow.
- Adjustable torch/radio strap at left chest area
- Bellow radio pocket, adjustable for different radio heights
- Napoleon pocket on left side as worn with whistle loop on the inside
- Adjustable cuff tabs for better fit
- Thumb loop to stop sleeving riding up when arms are extended
- Extended hem at the back to ensure full coverage of the lumber region when bending
- Storm guard attached using spot Velcro® closure
- Industrial wash, flame retardant sew-on solid (or perforated) reflective tape, attached with twin needle stitching for added strength, 50mm wide.
- Main zip attached to zip carrier for easier repair
- Strategic panelling that's ergonomically shaped for wearer comfort and ease of movement
- Anti-wicking panels on the cuff and body hem

FS675 Trousers

- Fixed H style braces with quick adjustment.
- Front waist adjustment for better fit.
- Ergonomically shaped abrasion resistant knee reinforcement panels with Kevlar padding for additional puncture protection. Internal fixed knee pads to ensure wearers comfort.
- Reinforced leg hem for abrasion resistance
- Centralised fly zip with inner zip guard – fly zip is covered with a storm guard.
- Industrial wash, flame retardant sew-on solid (or perforated) reflective tape, attached with twin needle stitching for added strength, 50mm wide.
- Ergonomically shaped knee panels
- All closures are easily operated whilst wearing gloves.
- Leg bottoms have a gusset and secured zip closure system to facilitate donning and doffing whilst wearing boots.
