

## Powder Wheeled Unit

### 50kg ABC Powder Fire Extinguisher

Product Code: FST6-050-000

ABC powder is a combination of Mono-ammonium phosphate and ammonium sulphate. The extinguishing powder interferes with the chemical reactions that take place in the combustion zone, thus the flame ceases to exist. The powder also has a low melting point and on application the particles fuse and swell to form a barrier which excludes oxygen and completes the extinguishing process and prevents re-ignition.

The powder is non conductive and may be used in the presence of an electrical current.

ABC powder will extinguish class A (carbonaceous) fires, class B (flammable liquid) fires and class C (flammable gas) fires.

- CE marked in accordance with the PED
- Manufactured in accordance with and tested to BS1866
- Wheel marked in accordance with the MED
- Colour coded screen
- Manufactured in the UK
- Reliability
- Designed for long service in harsh conditions

Technical Specification								
Capacity (litres)	Fire rating	Temp Range	Operating pressure (bar) @ 20° C	Discharge duration (secs)	Discharge range (mtr)	Width (mm)	Depth (mm)	Height (mm)
50	11B	-30°C to +60°C	11.5	35	14	510	610	980
