

F1SF Fire Helmet

Product Code: BR04-0783-01

- Based on the original F1 design, the F1SF helmet meets the most demanding head protection requirements of the fire-fighting market.
- The F1SF features built-in interfaces on both sides to become a flexible head protection platform for different types of accessories.
- The KitFix mask adapters can be easily adjusted for perfect mask attachment and optimal wearing comfort.
- A new 3-points fireproof, adjustable chinstrap provides increased comfort and stability.
- The F1SF complies to the EN443 standard and has been engineered to meet the upcoming European specifications.

F1SF Helmet

[Structural Fire-Fighting]

Application

Very high performance helmet for firefighter head protection against heat, shocks, penetration, smokes, aggressive liquids and chemicals projection during fires in buildings and other structures.

Performances

EN443 : 1997 compliance
14 kW/m² , -20°/-30°C, E2/E3.

Composition

- **Shell:** Injected thermoplastic material with attachment points for face shield, eye screen, customisable front plate.
- **Padding:** Rigid padding for superior shock absorption and thermal protection, soft foam padding for comfort and stability.
- **Inner elements:** net vented cradle, adjustable in depth, 2 versions :
 - Standard net cradle with adjustable headband
 - Ratchet patented cradle with quick adjustment system
- **Chinstrap:** 3 points fire proof chinstrap, with possibility to adjust the angle of the strap for perfect comfort, even when wearing mask. The third point provides increased stability.
- **Mask attachment:** The F1SF helmets features adjustable SCBA mask adapters (Miffo).
- **Built-in interface:** the F1SF includes interfaces for accessories (ex. lamp) on both sides for maximum flexibility.

Characteristics

Size: 53 to 63 cm with a ratchet cradle
53 to 63 cm with a standard cradle
Weight: 1400 g. (± 50 g)
Color: White, Yellow, red, black, blue.
