

PS4170 Immersion Suit / Anti-exposure Suit

PS4170 is a high quality Gore-tex anti-exposure suit which is tailored for extended wear and maximum comfort, with a host of design extras and several standard options that create a unique solution with a custom look. The suit has several configuration options to fit customer requirements, and is designed to withstand the harshest condition, and is available with both 1-hour and 6-hour insulation. The extended zipper also provides more comfort for the user and minimizes water ingress, which ultimately gives a better in-water performance. The suit is manufactured to withstand the harshest conditions and has a high quality finish with several reinforcements, including knee, thigh and seat area, ensure a rugged and durable suit for constant wear.

Specially designed to comply with the latest SOLAS requirements and maximize protection against hypothermia and cold shock. The suit must be worn with a SOLAS approved lifejacket
All suits are produced in-house according to stringent manufacturing requirements.
