

Powder Fire Extinguishers, Cartridge Operated

Powder Fire Extinguishers

Product Description

Cartridge operated fire extinguisher. ABC powder is a combination of Monoammonium phosphate and ammonium sulphate. The extinguishing mechanism being that it interferes with the chemical reactions that take place in the combustion zone, thus the flame ceases to exist. The powder also has a low melting point and on application the particles fuse and swell to form a barrier which excludes oxygen and completes the extinguishing process and prevents re-ignition. The powder is non conductive and may be used in the presence of an electric current. ABC powder will extinguish Class A fires, Class B fires and Class C fires.

Key Points

- Approved and certified to BS EN3
- Kitemarked product
- Wheel marked in accordance with the MED
- CE marked in accordance with the PED
- Colour coded headcap
- Manufactured in the UK
- Excellent fire ratings
- Large neck ring enables servicing and refilling to be conducted with ease
- Reliability

Model Ref	FS06-065-05M	FS06-095-05M	FS06-125-05M
Capacity	6kg	9KG	12KG
Fire rating	27A/183B	34A/233B	43A/233B
Operating pressure	12 bar at 20°C	12 bar at 20°C	12 bar at 20°C
Operating temperature	-20°C to +60°C	-20°C to +60°C	-20°C to +60°C
Height	525mm	570mm	600mm
Diameter	165mm	190mm	190mm
Filled weight (approx)	11.3kg	15.4kg	18.7kg
